Dear Sir or Madam,
Since when did it become the job of the NAB to decide what I listen to on the radio. Especially, in light of the fact that I pay for this service. The NAB needs to wake up and smell the roses. Satellite radio provides variety and quality that are not available on ANY of their stations or elsewhere. As an over the road truck driver who finds himself in large metro areas during rush hours the XM Instant Traffic & weather channels provide me with much needed and accurate information.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
